Quotas of goods to be exchanged in the four years subsequent to 1948 will be determined by an agreement of both governments, to be concluded three months prior to the beginning of each of the subsequent years. The following exception is made to the preceding provision: During the years 1949 to 1952 the CSR will export to the USSR plant equipment, pipes for oil refineries, and rails, in accordance with the provisions of Index III.

During each of the years from 1949 to 1952, each country will export to the other country goods in the total value of 5,000,000,000 Czechoslovak crowns, and both governments will endeavor to increase the volume of goods exchanged.

Article 3

The Soviet Foreign Trade Organizations on the one hand, and Czechoslovak physical and legal persons on the other hand, will conclude purchase agreements within the framework of the quotas set forth in Article 2 of this agreement. Soviet orders placed in the CSR for the delivery of plant equipment as listed in Index III will cover the total volume of goods to be so delivered.

The Soviet Foreign Trade Organizations and Czechoslovak physical and legal persons may conclude purchase agreements in excess of the quotas agreed upon in this treaty, provided that they obey regulations governing exports and imports in both countries.

Article 4

Prices of goods to be exchanged will be agreed upon by the two governments on the basis of world market prices for the various goods, and agreement will be reached not later than three months prior to the beginning of each year. Half of the cost of transportation may be added to the price of each item.

Article 5

Payment for goods delivered under the provisions of this treaty and payments for all expenses connected with the delivery of such goods will be made in the USSR to the Soviet State Bank and in Czechoslovakia to the Czechoslovak National Bank. For this purpose these two banks will open special accounts in Czechoslovak crowns which do not carry interest, and they will inform each other immediately of all payments made to these accounts. Once such notification has been received by the respective bank, payment will be made as soon as the organizations or persons to whom payment is due shall present the necessary documents to the bank. Payment will be made by the bank, regardless of the balances shown at that time by the special accounts referred to in this paragraph.

Article 6

In every instance after an agreement has been reached between the Soviet State Bank and the Czechoslovak National Bank, transfers may be made between the special accounts mentioned in Article 5 of this treaty, and accounts maintained by the central bank of a third country with the Soviet State Bank and the Czechoslovak National Bank, provided that the USSR and the CSR have entered into payment agreements with the third country.

Article 7

The total payments made by both parties in accordance with the provisions of Article 5 of this treaty must be equal, and a balancing of the accounts will have to be made at the end of every half-year period so long as this treaty remains in force.

It will, however, not be considered a violation of the balance agreement contained in the preceding paragraph, if, at the end of any half-year period, accounts

CONFIDENTIAL

mentioned in Article 5 of this treaty show a balance of no more than 150,000,000 Kcs. in favor of one party.

Article 8

The Soviet State Bank and the Czechoslovak National Bank will make the necessary arrangements concerning the technical procedures of mutual accounting.

Article 9

In every instance after an agreement has been reached between the Soviet State Bank and the Czechoslovak National Bank, transfers other than those referred to in Article 5 of this treaty may be made to and from the special accounts referred to in Article 5 of this treaty.

Article 10

The Soviet State Bank and the Czechoslovak National Bank will continue to accept payments made to the special accounts referred to in Article 5 of this treaty and to make payments for goods delivered under the provisions of this treaty after the date of expiration of this treaty. If, after the expiration of this treaty, the special accounts referred to in Article 5 of this treaty show a balance in favor of one party, the other party will have to settle this debt within six months, counting from the date of expiration of this treaty, either by delivering additional goods or by the transfer of gold or hard currency as the creditor country may direct. The rate of exchange between Czechoslovak crowns on the one hand, and gold or hard currency on the other hand, will be determined by the currency exchange quotations of the Czechoslovak National Bank on the date payment is made.

Article 11

In order to control the execution of the provisions of this treaty, the governments of the USSR and the CSR have appointed plenipotentiaries who will meet every six months alternately in Moscow and Prague. They may also meet earlier, if one party so requests; the plenipotentiaries may also work out necessary recommendations to one or both parties concerning the execution of this treaty. The plenipotentiaries may avail themselves of the advice of experts if they so desire. The plenipotentiaries will also prepare plans for the mutual delivery of goods for each three-month period.

Article 12

This treaty shall become valid on 1 January 1948, and shall remain valid until 31 December 1952.

Given at Moscow on 11 December 1947 in two equivalents in the Russian and Czechoslovak languages, both of which have the same validity.

[] Comment: The German text, especially of Articles 2 and 7 is not clear and is therefore open to various interpretations.)

The Government of the USSR, in response to a request from the Government of the CSR, has granted the CSR a loan for the purpose of paying for the delivery of goods from the USSR during the year 1948, within the framework of the trade agreement concluded between the two countries. The two governments have agreed to the following:

Article 1

The Government of the USSR grants a loan amounting to 1,150,000,000 Czechoslovak crowns to the CSR for the purpose of paying for goods to be delivered from the USSR to the CSR during the year 1948, in accordance with the provisions of the trade treaty concluded between the two countries.

Article 3

The loan will be repaid in the following fashion: 400,000,000 Kcs. are to be repaid not later than September 1948, and the rest of the loan is to be repaid in equal half-yearly installments during the years 1949 and 1950. By agreement of both parties, the loan may also be repaid totally or partially by transfer to the USSR of gold or hard currency.

Article 5

The Government of the CSR will pay an interest on the loan of $\frac{3}{8}$ per annum; interest is to be paid in half-yearly installments from the balance of the account established under the provisions of Article 5 of the trade treaty concluded between the two countries.

Payment to the USSR will be made immediately after this date in accordance with the provisions of Article 5 of this agreement. After the loan has been exhausted, no more interest will be credited to the account established under the provisions of Article 5 of the trade treaty, and provisions of Article 7 of the trade treaty will be fully applied.
